

If you wish to pursue federal funding for worthwhile projects that fit the priorities established for existing funding programs, please complete the FY 2011 Appropriations request form below and submit it by February 26, 2010.

My commitment to openness and transparency in the federal appropriations process may require the public disclosure of all information provided in this questionnaire, either on my official Congressional website or elsewhere, and all requests are subject to public input and scrutiny.

Over the coming months, Congress will debate the FY 2011 Appropriations bills. I will give due consideration to every proposal submitted from the Illinois Fifth District. Please also be aware that only a limited number of submitted projects will actually receive funding.

I look forward to partnering with you at the Federal level to meet the needs of our local communities with the monetary support needed to ensure our economic success. Should you have questions regarding the application process, please feel free to contact Chad Obermiller via e-mail, at chad.obermiller@mail.house.gov, or by calling (202) 225-4061.

Sincerely,

Congressman Mike Quigley
